

MedHermes

VEGETABLE SEEDS

**NEW CUCURBITACEAE
2024/2025**

About us:

MED HERMES, society independent of seems with own activity of devoted investigation, is born in 2001 well soon solid reality is become, in the field of the investigation - production and marketing of the seeds from garden hybrid professional, competing in the markets of reference with direct activity and through distributing partner.

Human resources of different nationality, coming from the sector investigation and marketing, have given life to an international project independent from chemical and pharmaceutical groups.

Every choice of ours of marketing is finished with the objective to associate to our mark and our firm values as:

- **Quality of the product**
- **Dynamism**
- **Mediterranean**

Our research on cucurbitaceae

Melon

- focus fruit quality
- aphids and powdery mildew resistance
- zero chemical residue
- high resistance to abiotic stresses

Watermelon

- focus on seedless typology
- high quality and flavor
- long shelf life
- high resistance to abiotic stress

Cucumber

- high virus resistance

Alpha F1

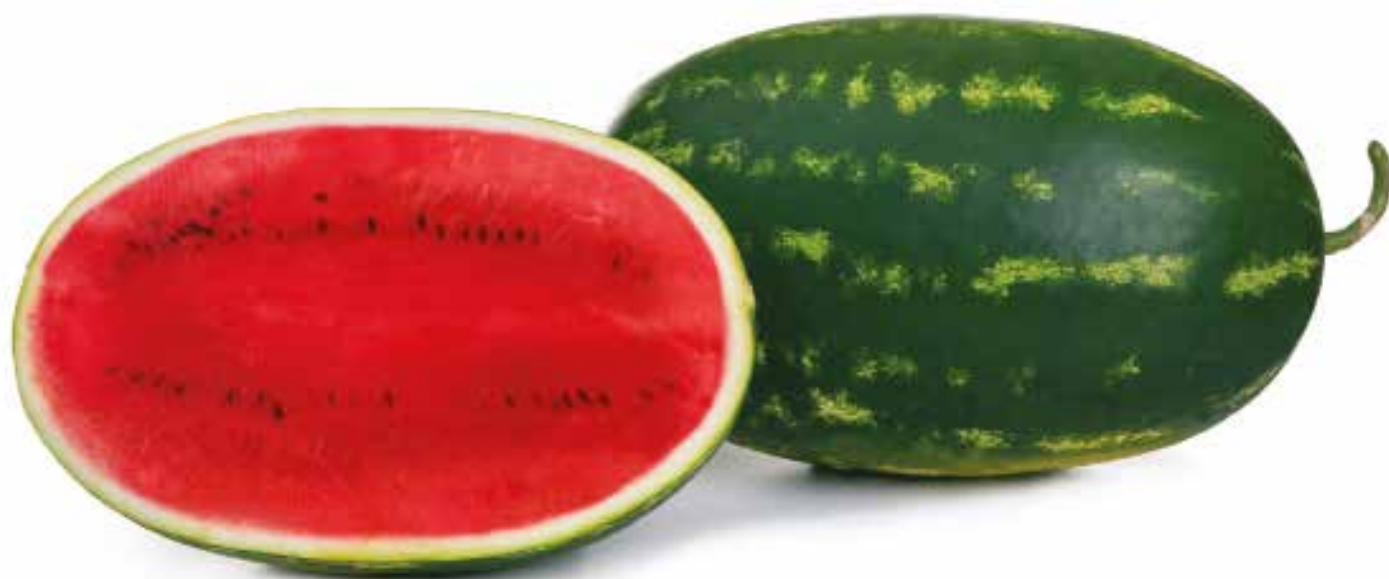

CRIMSON WATERMELON

Medium
early

14-16 Kg

Amaranta F1

MINI SEEDLESS WATERMELON

Medium
early

IR: Co

2-3,5 Kg

Bellota F1

MIDI SEEDLESS WATERMELON

Early

IR: Co

4-6 Kg

Selene F1

MIDI SEEDLESS WATERMELON

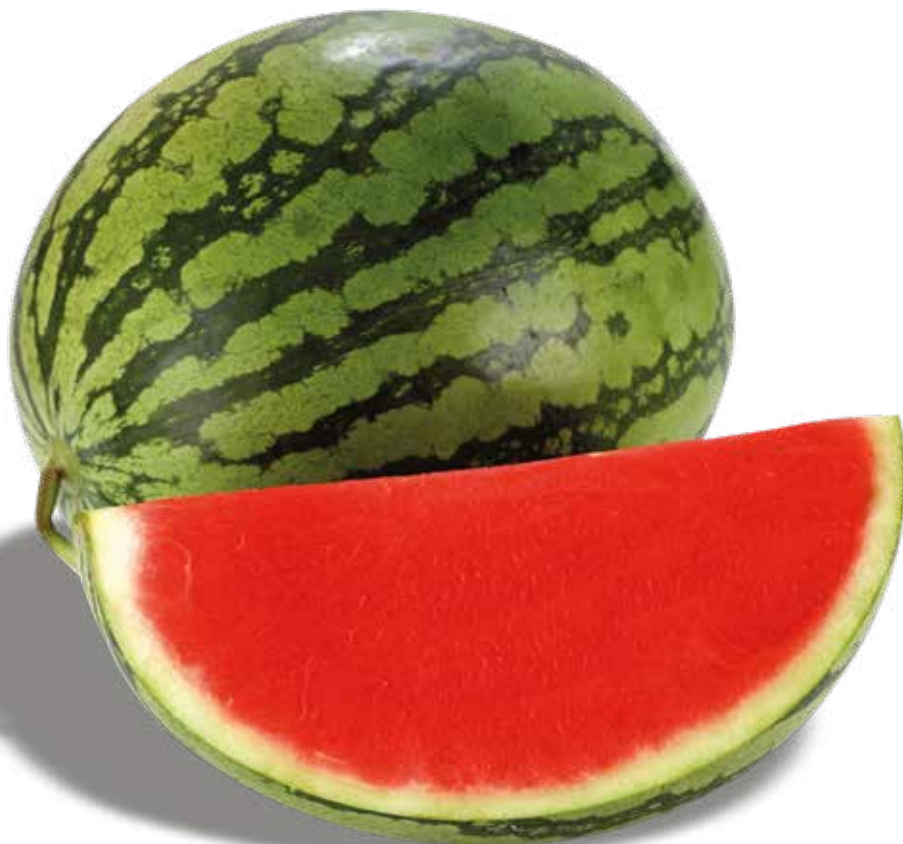

Medium
early

IR: Co

8 Kg

MIM 190 F1

CANTALOUPE MELON

Early

HR: Fom 0,1,2. AG
IR: Gc, Px

1-1,3 Kg

MIM 191 F1

CANTALOUPE MELON

Medium
early

HR: Fom 0,1,2.
AG
IR: Gc, Px

1-1,3 Kg

Hator F1

YELLOW MELON

Early

HR: Fom 0,1,2

1,5-2,5 Kg

Sharur F1

CUCUMBER

Early

HR: Px (Oídio)
IR: CVYV; CYSDV
