

TOMATOES

2025/2026

About us:

MED HERMES, society independent of seeds with own activity of devoted investigation, is born in 2001 well soon solid reality is become, in the field of the investigation - production and marketing of the seeds from garden hybrid professional, competing in the markets of reference with direct activity and through distributing partner.

Human resources of different nationality, coming from the sector investigation and marketing, have given life to an international project independent from chemical and pharmaceutical groups.

Every choice of ours of marketing is finished with the objective to associate to our mark and our firm values as:

- **Quality of the product**
- **Dynamism**
- **Mediterranean**

Our research on solonacee

Tomatoes

- high quality and flavor
- long shelf life
- high virus resistance
- zero chemical residue
- high resistance to abiotic stress
