

Pinty F1

Green type

Middle-earling maturing

HR: ToMV; Vd, Fof 0,1
IR: TYLCV; Ma, Mi, Mj

220-250 g

Calibro G

Indeterminate green tomato variety (it behaves both as green and red) suitable for single fruit harvesting. With its weight of 220-250 gr. (0,48-0,55 pounds), the fruit is characterized by a shiny green surface which envelopes a tasty flesh. Another distinctive character of Pinty F1 is an excellent shelf life (even in the red version). The plant is very rustic and covering with medium stamina and a high production rate.
