

Timeo F1

Earling maturing

HR: Fom 0, 1.
IR: Px.

2,5-3 Kg

Yellow wrinkled (gialletto rugoso) melon variety, it has a typical oval shape and a bright yellow surface. Inside the reduced hollow there can be found a white flesh extremely crunchy, very tasty and with a high brix rate. The plant is rustic and covering, it is highly productive and it presents a vigorous blossoming. It has also a good tolerance against ash disease. Finally the fruit weights between 2.5 and 3 Kg. (5.5/6.6 pounds) and qualifies itself to have good shelf life (LSL).
