

Yahoo F1

Sweet Italian Type

Middle-earling maturing

HR: TMV

16x12 cm

Pepper variety for greenhouse, tunnel and open field cultivation. The fruit is $\frac{3}{4}$ quadri-lobated, with an excellent width and high shelf life (LSL). It is characterized by a long leaf stalk and a uniform fruit, which is strong red and it has thick skin. Yahoo F1 plant is very rustic and productive even in the upper branches. It has regular internodes and takes well roots even with high temperatures.
